BASIC WORKSHOP IN CORE SHAMANISM
Michael Harner's The Way of the Shaman® Shamanic Journeying, Power and Healing
Taught by Ellen Winner, JD, CSC®

During the Basic experiential workshop, participants are introduced to core shamanism, the universal and near-universal basic methods of the shaman to enter non ordinary reality for problem solving and healing. Particular emphasis is on the classic shamanic journey, one of the most remarkable visionary methods used by humankind to explore hidden realms otherwise known mainly through myth and dream. Participants are initiated into shamanic journeying, aided by drumming and other techniques for experiencing the shamanic state of consciousness and for awakening dormant spiritual abilities, including connections with Nature.

Practice includes comparisons by participants of their discoveries in shamanic journeys as well as being introduced to shamanic divination and healing. They are also provided with methods for journeying to meet and study with their own individual spirit helpers in non ordinary reality, a classic step in shamanic practice. Participants learn how the journey is utilized to restore spiritual power and health, and how shamanism can be applied in contemporary daily life to help heal oneself, others, and the Planet.

Completion of this workshop with an authorized Foundation for Shamanic Studies Faculty Member qualifies participants to take more advanced Foundation workshops.
